DETAILED ACTION

Current Status

- 1. This action is responsive to Applicants' amendment of 13 March 2009.
- 2. Receipt and entry of Applicants' amendment is acknowledged.
- 3. Claims 1-3, 5, 7, 9, 11-14, 16, 18, 21, 24, 29, 30, 34, 37, 51, 54, 56, 58, 59 and 62-65 are pending in the application.
- 4. The rejection of claims 62-65 under 35 U.S.C. 103 as being unpatentable over Lee, {US 6,388,138} is withdrawn because the prior art reference does not teach all the claim limitations.
- 5. The nonstatutory obviousness-type double patenting rejection is withdrawn because Applicants filed a Terminal Disclaimer.
- 6. The rejection of claims 1-3, 5, 7, 9, 11-14, 16, 18, 21, 24, 29, 30, 34, 37, 51, 54, 56, 58 and 59 under 35 U.S.C. 103 as being unpatentable over Lee, {US 6,388,138} for the reasons set forth in the previous Office Action of 12/18/2008 is maintained.

 Applicants' argument and amendments filed 13 March 2009 have been fully considered

but they are not persuasive because Applicants claimed process is obvious in view of

the prior art reference cited. Applicants' argument is based on the fact that the prior art relied upon employed excess ammonium while Applicants claim lower excess concentration of an acid and a base, and that their process yield unexpected result. Applicants further argue that the lower amounts of amine and protic acid needed lead to decreased material costs, and reduction in the amount of waste produced by the process, while permitting a high yield of the desired product to be attained.

Applicants' argument is not convincing because the independent claims 1 and 54 do not recite the use lower excess concentration of an acid and a base in Applicants claimed process.

Allowable Subject Matter

Claims 62-65 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chukwuma O. Nwaonicha whose telephone number is 571-272-2908. The examiner can normally be reached on Monday thru Friday, 8:30am to 5:00pm.

Application/Control Number: 10/589,413

Art Unit: 1621

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Daniel Sullivan can be reached on 571-272-0779. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published

applications may be obtained from either Private PAIR or Public PAIR. Status

information for unpublished applications is available through Private PAIR only. For

more information about the PAIR system, see http://pair-direct.uspto.gov. Should you

have questions on access to the Private PAIR system, contact the Electronic Business

Center (EBC) at 866-217-9197 (toll-free).
